Meaning of symbols in the table:
○ = Supported, - = Not Supported, ※= Planned Support, Gray = Third-party Software, Orange = Discontinued Product

① Please make PC disable Fast Startup before use.
② Please make PC disable both Fast Startup and Secure Boot before use.
③ For Windows 7, use the final supported version or earlier.
④ Supported OS is only on Windows 10 version 1607 and later.

※ For Linux, the latest supported kernel version is listed. The verified distributions and kernel versions vary for each software package.
